

Proposed Responsible Breeding and Ownership of Dogs (Scotland) Bill

Page 1: Introduction

A Proposal for a Bill to improve the health and wellbeing of dogs throughout their lives by strengthening the regulation of the activity of breeding, and of selling or transferring puppies, and by establishing a more responsible and informed approach to acquiring and owning a puppy or dog. The consultation runs from 4 May 2018 to 30 July 2018 All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document. Questions marked with an asterisk (*) require an answer All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response. Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded. Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here: [Consultation document Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice attached to this consultation which explains how my personal data will be used

Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Professional with experience in a relevant subject

Optional: You may wish to explain briefly what expertise or experience you have that is relevant to the subject-matter of the consultation:

Accredited trainer and worked with welfare/rescue

Please select the category which best describes your organisation

No Response

Please choose one of the following:

Please choose one of the following:

I am content for this response to be published and attributed to me or my organisation

Please provide your name or the name of your organisation. This will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response.

Elaine Macfarlane

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 8: A - Reducing the threshold for a breeding licence to three litters a year

Q1. Which of the following best describes your view of reducing the threshold for a breeding licence from five to three litters in a twelve month period?

Fully supportive

Please explain the reasons for your response, including any advantages or disadvantages.

Reducing litters reduces the impact on already ovvraaturated rescues

Page 9: B - Extending the breeding licence regime to any form of transfer, not only sale

Q2. Which of the following best describes your view of requiring people to be licensed as breeders even if they do not sell their puppies, but transfer them/give them away?

Fully supportive

Please give reasons for your answer, including any advantages or disadvantages.

Breeding for any reason should be regulated. The lives of up to teens of animals each litter are put at risk. Equally the impact on council and rescues as there a high likelihood of at least one of each litter straying or being abandoned.

Page 10: C - Introducing a temporary registration scheme for those that breed fewer than three litters a year

Q3. Which of the following best describes your view of introducing a temporary registration scheme for those breeding one or two litters in a 12 month period who wish to sell or transfer their puppies?

Fully supportive

Please explain the reasons for your answer, including any advantages or disadvantages.

As before

Q4. Under the proposal, someone with only one or two litters in a 12 month period found to be selling or transferring puppies without completing an online temporary registration would be committing an offence and may be liable to pay a fine. Which of the following best describes your view on this?

Fully supportive

Please give reasons for your answer, including any advantages or disadvantages.

Even accidental breeding (which frankly is negligence) is still producing pups and needs to act responsibly.

Page 11: D - Ensuring future health and welfare needs of dogs through a more responsible and informed approach to acquiring and owning a puppy/dog

Q5. Which of the following best describes your view of creating an obligation on prospective owners to consider carefully a set of questions related to their capacity to take on a puppy/dog?

Fully supportive

Please give reasons for your answer, including any advantages or disadvantages.

Requiring some level of consideration may reduce impulse buys or purchasing as gifts etc.

Q6. Which of the following best describes your view of placing an obligation on the breeder/keeper of a dog to check that any prospective owner is aware that they should have considered these questions?

Fully supportive

Please give reasons for your answer, including any advantages or disadvantages

As above

Q7. Which of the following best describes your view of obliging anyone acquiring a puppy from a breeder in Scotland to check that the breeder is licensed or registered?

Fully supportive

Please give reasons for your answer, including any advantages or disadvantages

Q7. Which of the following best describes your view of obliging anyone acquiring a puppy from a breeder in Scotland to check that the breeder is licensed or registered?

Again, this adds pressure on all parties to ensure that there's at least some effort in place to check welfare etc.

Page 12: Financial impact

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Local authorities			X			
(b) Dog breeders		X				
(c) General public (including dog owners)			X			
(d) Police and animal welfare organisations				X		

Please explain the reasons for your response.

Reduced costs for those saving, housing, catching, clearing up after etc. Increased slightly for breeders as extra work put in, possibly passed on to buyer. Otherwise I feel all costs should balance.

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Unsure

Please explain the reasons for your response.

I feel the impact would be a 'time will tell situation

Page 13: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, race, religion and belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Please explain the reasons for your response.

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, race, religion and belief, sex, sexual orientation?

I can't see it having any issues impacting discrimination

Page 14: Sustainability

Q11. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

Please explain the reasons for your response.

I think the costs involved would be matched or outweighed by savings based on less strays, abandonment, rescues etc.

Page 15: General

Q12. Do you have any other comments or suggestions on the proposal?

I think a competency requirement for breeding may be beneficial

Q13. Could the aims of the Bill be better delivered in another way (rather than by means of a Bill in the Scottish Parliament)?

Unsure

Please explain the reasons for your response

Not sure whether simply more policing locally would be easier
